Light-Top as a table lamp

Light Top with swivel arm

Light-Top | The unique illumination for monitor workstations. The light is concentrated onto the working surface. There are no irritating effects such as mirroring or light reflections on the screens. Greater comfort and better concentration – Light-Top creates the ideal working conditions. The distribution of light on the working surface and the brightness can be adjusted individually.

- Dimensions: 543 mm × 104 mm × 47 mm
- fluorescent tube with 13 Watt
- Individually adjustable cone of light and free positioning of the lamps
- Electronic ballast with additional interference filter
